Experience

Software Developer Intern Internship

Velora Tech Labs · Kigali, Rwanda

2024 — Present

- Contributed to fullstack web projects using React, Node.js and PostgreSQL.
- Collaborated in agile sprints, code reviews and technical design discussions.
- Assisted in building scalable REST APIs and microservices.

Web Developer & Maintainer Part-time

Rwanda Coding Academy — MIS · Nyabihu, Rwanda

2024 — Present

- Maintain and develop the RCA website (rca.ac.rw) and Management Information System.
- Implement new features, fix bugs and ensure high availability.
- Work with the technical team on infrastructure and deployment.

Fullstack Developer Contract

CodeBrige · Kigali, Rwanda

2024

- Worked on codebrige.rw — a platform connecting developers and opportunities in Rwanda.
- Built frontend interfaces with React and backend services with Node.js.
- Handled database design and REST API development.

AI & Backend Contributor Collaborative Project

GWIZA AI — Umurava · Rwanda

2024

- Contributed to GWIZA AI, an intelligent assistant project under Umurava.

- Worked on backend API integration and AI model connectivity.
- Participated in system architecture design discussions.

Projects

StaffNet

Built & Deployed

A comprehensive staff management system built for Innov. Features employee records, leave management, payroll tracking and role-based access control.

React

Node.js

PostgreSQL

Express

JWT

RCA Website & MIS

Maintainer

Official website and Management Information System for Rwanda Coding Academy. Handles admissions, student records, academic content and institutional data.

TYPO3

PHP

MySQL

JavaScript

CodeBrige

Contributor

A developer community and opportunity platform for Rwandan tech talent. Connects developers with jobs, projects, and learning resources.

React

Node.js

MongoDB

Express

Umuco Core

Built & Deployed

A cultural content platform preserving and sharing Rwandan heritage through digital media. Built with a modern web stack and deployed on Vercel.

React

TypeScript

Node.js

MongoDB

Kamme — Hospital Scheduler

Built

A mobile application for hospital appointment scheduling. Patients book appointments, doctors manage schedules, and admins oversee hospital workflows.

React Native

Node.js

PostgreSQL

Push Notifications

HerIngress

Technovation Semifinalist

An app empowering women in tech with resources, mentorship matching, and community features. Achieved semifinalist status at Technovation Girls competition.

React Native

Firebase

Node.js

GWIZA AI

Contributor

An AI-powered intelligent assistant developed under Umurava. Contributed to backend API integration and AI model connectivity layer.

Python

Node.js

REST APIs

AI/ML

Education

Software Engineering & Embedded Systems

Rwanda Coding Academy (RCA)

2022 — 2025 · Nyabihu, Rwanda

Interdisciplinary program in AI, Robotics, Creative Computing and Scientific Research.

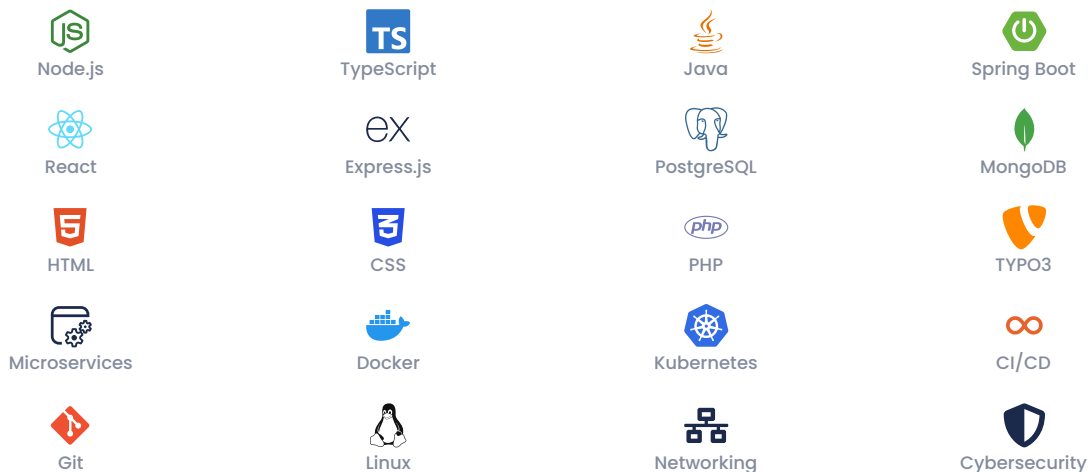

Nazli Tech Schools — Technical Training

Nazli Tech Schools

2023 · Rwanda

Intensive hands-on training covering modern web technologies, cloud, and software engineering practices.

Tech Stack

Achievements

Technovation Girls — Semifinalist

HerIngress app reached the semifinal round of Technovation, a global tech competition for young women innovators.

Rwanda Coding Academy

Selected student at one of Rwanda's most competitive and prestigious technology academies funded by the Government of Rwanda.

Nazli Tech Schools Graduate

Completed intensive technical training covering fullstack development, cloud infrastructure and modern engineering practices.

Open Source Contributor

Active GitHub contributor with public projects spanning web apps, APIs and mobile applications.

"Code is like humor. When you have to explain it, it's bad." — Cory House
